About Me

Computer science student with a passion for coding and software development. Proficient in Font-end with experience in developing Interactive websites, UI and UX. I am seeking an internship role in as a Font-end Web development role where I can leverage my skills to contribute to the success of the projects.

Projects

LIBRARY MANAGEMENT

Completed in - 2 Months
This was an independent project, with this system where students and teachers can issue books by just filling a simple form. Admin can access it to maintain the inventory of the books based on serial number and names of authors.

HOME DECORZ

Duration- 3 Months
It was a group project. In this project customers can choose various home decor options and can consult with architects online to have seamless experience.

RESTAURANT

Duration- Work in progress.
In this project customers can reserve a table in their nearby restaurants, look at the menu. I am planning to add customer ratings,
